WHAT IS SKILLED HOME HEALTH CARE?

Skilled Home Health Care is Caring Support Where You Feel Most Comfortable — At Home

Skilled Home Health Care is a service that brings licensed medical professionals—such as nurses and therapists—right to your home. It's designed for people who need medical help after an illness, surgery, or hospital stay, or for those who need ongoing care for a chronic condition.

What Does “Skilled” Mean?

*“Skilled” means the care is provided by **licensed** medical professionals such as:*

- **Registered Nurses (RNs) and Licensed Practical Nurses (LPNs)**
They provide wound care, medication management, IV therapy, injections, and monitoring of health conditions.
- **Physical, Occupational, and Speech Therapists**
They help you regain strength, balance, mobility, and communication skills so you can stay independent at home.

Who Can Receive Skilled Home Health Care?

You may qualify if:

- You've recently been in the hospital, rehab, or nursing facility.
- You have a new diagnosis or medication that requires monitoring.
- You have wounds or surgical sites that need care.
- You have difficulty leaving home without assistance.
- Your doctor has ordered skilled nursing or therapy services.

How It Works

- Your doctor orders home health care.
- A plan of care is created specifically for *your* needs.
- A nurse or therapist visits you at home.
- They provide care, education, and coordinate with your doctor.
- The team supports you and your family.
- They teach you how to manage your condition safely and help you become more independent.

Why Choose Home Health Care?

- You receive professional, one-on-one medical care in your own home.
- You can recover faster and stay out of the hospital.
- You and your family are actively involved in your care.
- You stay comfortable and safe in familiar surroundings.
- You maintain independence and dignity while receiving the care you need.

Cost and Coverage

- The best part—Medicare covers 100% of approved home health services for eligible patients.
- Private insurance and other plans may also cover skilled home health care.
- There are no out-of-pocket costs for Medicare patients if eligibility criteria are met.

Skilled Home Health Care helps you heal, stay safe, and live well—right where you belong: at home.

How Can I Guarantee that Legacy HHC will be my care provider?

Home Health Care referrals are made by your primary care provider or hospital team, but you can request your preferred provider. Ask to be referred to **Legacy Home Health Care** and call **352-478-7030**. Our intake team will guide you through the process, and you should expect to be contacted within 48 hours of your referral.
